

«УТВЕРЖДАЮ»  
Зав. кафедрой нормальной анатомии  
человека, профессор Н. Т. Алексеева  
26.08.2025 г.

**31.05.03 Стоматология «МИМОС»**  
**образовательная программа, частично реализуемая на английском языке**  
**31.05.03 Dentistry**

**CALENDAR-THEMATIC PLAN OF LECTURES AND PRACTICAL CLASSES  
IN “HUMAN ANATOMY. HEAD AND NECK ANATOMY”  
FOR 1<sup>ST</sup> YEAR STUDENTS IN THE 1<sup>ST</sup> TERM OF 2025–2026 ACAD. YEAR**

**Lectures**

Monday – 13:40–15:20 – Anatomical museum  
Lecturer – Associate Prof. D.A. Sokolov

| №<br>п.п. | Date  | Topic                                                                                                       |
|-----------|-------|-------------------------------------------------------------------------------------------------------------|
| 1.        | 29.09 | Introduction to anatomy.<br>Osteology                                                                       |
| 2.        | 20.10 | Arthrosyndesmology                                                                                          |
| 3.        | 10.11 | The general plan of skull structure: typological, age-related, and sexual characteristics of craniometry.   |
| 4.        | 24.11 | Development of the Skull. Anomalies of Development. Topography of the Skull. Applied Aspects of Craniology. |
| 5.        | 8.12  | Myology                                                                                                     |

**Practical classes**

**2-hours lessons (Thursday)**

| №<br>п.п. | Date  | Lesson topic                                                                                        |
|-----------|-------|-----------------------------------------------------------------------------------------------------|
| 1.        | 2.10  | Introduction to Anatomy.<br>Musculoskeletal System. <b>Osteology</b> . Skeleton of the Trunk.       |
| 2.        | 9.10  | Skeleton of the Upper Limb.                                                                         |
| 3.        | 16.10 | Skeleton of the Lower Limb.                                                                         |
| 4.        | 23.10 | <b>Arthrology</b> . Connections of the Bones of the Trunk.                                          |
| 5.        | 30.10 | Connections of the Bones of the Upper Limb.                                                         |
| 6.        | 6.11  | Connections of the Bones of the Lower Limb.                                                         |
| 7.        | 13.11 | <b>Cranial Anatomy</b> . Bones of the Cranial Vault.                                                |
| 8.        | 20.11 | Ethmoid Bone. Temporal Bone.                                                                        |
| 9.        | 27.11 | Bones of the Facial Skull.                                                                          |
| 10.       | 4.12  | Topography of the Skull.                                                                            |
| 11.       | 11.12 | <b>Final Session on 'Osteology, Arthrology, Craniology'</b> : Interview, Practical Skills, Testing. |
| 12.       | 18.12 | Myology. Muscles and Fasciae of the Head.                                                           |
| 13.       | 25.12 | Muscles and Fasciae of the Neck. Topography of the Neck.                                            |
| 14.       |       | Muscles and Fasciae of the Back, Chest, and Upper Limb. Topography.                                 |
| 15.       |       | Muscles and Fasciae of the Abdomen and Lower Limb. Diaphragm. Topography.                           |
| 16.       |       | <b>Final Session on the Topic 'Myology'</b> . Interview. Practical Skills. Testing.                 |
| 17.       |       | <b>Credit lesson</b> .                                                                              |
